# ART TREK

Spring 2024

## Day Trekking - Future Learning

A SPRING FLING, is it just another walk in the park or in my garden? It is much more. It is the anticipation and the memories of new growth in the great out-doors. I am inspired to search for crocus on the sunny side of the hill, experience a solar eclipse, waiting for shooting stars and enjoying the flowers from my elusive memories. I want to re-create magic moments. What are your wild flowers and do you see them in color? This Spring; I want to refurbish the old and brighten up the dilapidated, I want to play in the sunshine and dance in the rain, so to speak. I want to make good use of my stash of supplies, make room for change and embrace those feelings of discovery. I want to value my personal time, so that I am open and free to spend time with others. We at the Healy Heritage Art Centre are opening our doors to as many classes as we have interests, providing flexibility for dates and times, to encourage new play stations. Fill our sand box with those who want to play. Let us know about your wants. Life is full of surprises; make your choices, make your memories. *Linda*
