## Create yourself ...

...Nature has a wonderful way of providing an authentic slowdown moment; Winter.

Learn to relax and pursue your passions. Take time to create, (*to produce as a work of thought or imagination*). We have planned many classes this winter to inspire your creativity and encourage you to be brave and to try new things. Choose to be creative,

*(having the power or quality of creating...the art of causing to exit.)*

## Get creative... ..

Squelch the desire to do the predictable. Seek new ways to create yourself. Be bold and daring enough to bring your life and life experiences into your art; this is something only you can give.
